Between Science and Literature: AN INTRODUCTION TO AUTOPOETICS

Ira Livingston

Ira Livingston's "Between technology and Literature units out to introduce the basics of cultural and literary concept to a non-specialist audience. utilizing principles Between Science and Literature: AN INTRODUCTION TO AUTOPOETICS approximately self-reference, performativity, and autopoetics. Livingston constructs an alternative framework during which Between Science and Literature: AN INTRODUCTION TO AUTOPOETICS complex, self-organizing tactics take place in any respect scales, slicing throughout conventional divisions among phrases and things, tradition and nature. Livingston regards either language and tradition as self-referential systems, and argues for a technique that sees language as part of the world, rejecting the conventional cut up among phrases in our minds Between Science and Literature: AN INTRODUCTION TO AUTOPOETICS and issues "out there" to which they're imagined to refer. Livingston makes his case by way of drawing at the paintings of thinkers throughout disciplines, starting from philosophers like Deleuze and Guattari, to sociologists like Niklas Luhmann, to biologists like Stuart Kaufman, in addition to historians, gender theorists, and technological know-how fiction writers. The reader will get a think for the thoughts and the way to exploit them via a chain of version explications and analyses, operational definitions of suggestions and terms, prolonged case studies, and notion experiments.
