Handbook of Detailing: The Graphic Anatomy of Construction

Ralph W. Liebing

Liebing is a confirmed specialist and writer of Handbook of Detailing: The Graphic Anatomy of Construction specialised literature. he's additionally a professor within the box of making plans rendering and detailing and this can be his a bit of varied model of a handbook. the well known book, "Architectural Detailing," by way of Professor E. Allen und P. Rand, introduces element as a decision of process and construction. It covers an important box of guide that Liebing expands with a huge useful aspect. The "Handbook of Detailing" is set the mechanics, the functionality of the drafted details. no longer the exemplary rendering of information however the top rendering for the respective objective no matter if on the building website or the office. the writer zeros in on common weaknesses in detailing and indicates optimistic examples. He consciously does with no rendering copies and gives an "Anatomy of making plans Rendering" that may be adjusted to create the optimum effect.
