Incommensurability and Cross-Language Communication (Ashgate New Critical Thinking in Philosophy)

Xinli Wang

A dominant epistemological assumption at the back of Western philosophy is that it truly is attainable to find a few type of commonality among languages, traditions, or Incommensurability and Cross-Language Communication (Ashgate New Critical Thinking in Philosophy) cultures - reminiscent of a typical language or lexicon, or a typical idea of rationality - which makes complete linguistic conversation among them consistently attainable. Xinli Wang argues that the thesis of incommensurability demanding situations this assumption through exploring why and the way linguistic conversation among conceptually disparate languages, traditions, or cultures is frequently difficult or even unattainable. In keeping with Wang's presuppositional interpretation of incommensurability, the true mystery of incommensurability lies within the ontological set-ups of 2 competing presuppositional languages. This booklet offers many unique contributions to the dialogue of incommensurability and similar concerns in philosophy and gives beneficial insights to students in different fields, reminiscent of anthropology, communication, linguistics, clinical education, and cultural studies.
