# **Sauerbruch Hutton: Projekte 1990-1996 / Projects 1990-1996: Architecture in the New Landscape**

Robert Harbison

Matthias Sauerbruch und Louisa Hutton bringen eine äußerst willkommene Bereicherung in die deutsche Architekturszene: Eine Annäherung an architektonische und städtebauliche Aufgaben, die von ihrer Erfahrung in der berühmten Londoner Architekturszene an "Smithsons, AA-Schule und OMA" inspiriert ist. Im Fall von Berlin bedeutet das eine bedenkenswerte Substitution zur Linie von Platz/Block/Straße/Haus an "Innovation statt Konvention, freche Intelligenz statt beruhigende Ordentlichkeit, Stadt als lebendiger Organismus und nicht Stadt als fixiertes Raster. Die im Buch dargestellten Projekte sind: GSW-Hauptverwaltung; Olympische Schwimm- und Radsportbahnen; Urbanistischer Rahmenplan Heinrich Heine-Straße; Urbanistischer Rahmenplan für die Stadtmitte Marzahn; Wohn- und Bürohaus in Marzahn; Wohnquartier Südfriedrichshagen; Grundschule für die jüdische Gemeinde Berlin; Bundespräsidialamt; Verwaltungsgebäude für den Bundestag, Alsenblock; Innovationszentrum Photonik als Teil des Wissenschaftsparks Adlershof.
