Galileo's pioneering use of the telescope confirmed that the earth isn't really on the middle of the universe and resulted in his trial and conviction by way of the Inquisition. This primary conflict among technology and faith nonetheless bedevils us. The Person of the Millennium: The Unique Impact of Galileo on World History this day in lots of ways. Galileo, however, made an excellent better contribution to background when, in destroying medieval technological know-how and learning the legislation of motion, he confirmed the approach of recent science. As an instantaneous results of his work, Revelation and Scripture The Person of the Millennium: The Unique Impact of Galileo on World History as assets of fact have been changed via Experimentation and Measurement, whereas culture and Authority as interpreters of fact have been changed through Individualism and Egalitarianism. This large alteration within the clinical strategy finally swept via all non-scientific disciplines and created the fashionable world. An excellent case can hence be made that Galileo is the main influential individual in history. No matter if one doesn't believe the conclusion, tracing this dramatic swap is likely one of the most fun of highbrow adventures. "Argues well....Interesting....Insightful and The Person of the Millennium: The Unique Impact of Galileo on World History good written....Recommended." --Choice (March 2006) This is a truly sweeping thesis concerning grand theorizing within the variety of the previous philosophy of history. However, Weidhorn's argument is nuanced and sophisticated.... even if one values this kind of grand theorizing and even if one thoroughly accepts the thesis, Weidhorn has developed a helping argument that's eloquent, intelligent, cogent, and infrequently original, and has written a well-argued, thoughtful, and thought-provoking book. --Maurice A.
